

SERVICES CURRENTLY AVAILABLE THROUGH SDIS

During these unprecedented times, we know our members are doing their best to continue to work as normal as they can while trying to mitigate risks to their operations, employees and patrons. As the country's motto has become "*We are all in this together*", we want you to remember that includes your risk management team. We have been meeting with members regularly through telephone consultations and video chats. So please reach out to us at riskmanagement@sdao.com if there is anything you would like assistance with.

We continue to work for you and want to remind you that the following services are still available:

- It's a good time to review your safety programs and we can help answer your questions and/or get you updated sample documents for a starting point.
- We continue to provide live/recorded webinars that can be found on the SDAO website.
- We have not done it yet during this COVID-19 stay-at-home era, but if there is a training you would like for your staff, we can set up a video cast training. A list of our trainings can be found at www.sdao.com/risk-management-trainings-for-sdis-members.
- Risk Management can conduct online meetings with you to discuss any risks or concerns that you might have.
- SafePersonnel Online trainings are still available. A list of these trainings can be found at: www.sdao.com/online-training.

- We have seats left in our online drone training if your district is interested in starting your own drone program.

- If you are in the SDIS workers' compensation program it is a good time to conduct your annual review of your Loss Control Program. If you need assistance or do not have this program in place, please reach out to us and we can help you get started.

We want you to know even during this time of uncertainty, your SDAO Risk Management Team is here to support you. If you need assistance with anything risk related, please utilize us at riskmanagement@sdao.com. What can we do for you today?
