About Oregon Fire Chiefs Association

The Oregon Fire Chiefs Association (OFCA) is made up of fire service personnel at all levels, and provides opportunities for its membership to attend training and conferences throughout Oregon. The Association encourages and supports its membership through their involvement with many committees and task forces, such as Legislative, Wildland, and Fallen Firefighter Memorial.

Our Mission

The OFCA's mission is to help Lieutenants, Captains, Safety Officers, and Chiefs at all levels be the best they can be through continuing education, meaningful connections, and positive involvement with an array of work groups. Departments all across Oregon represent the face of OFCA; we strive to combine the knowledge, skills, and resources of these departments, to better the fire service as a whole. OFCA provides administrative support, advertises and staffs trainings, plans and runs conferences, offers legislative guidance and action, and provides meaningful connections and relationships with other members and relevant agencies.

Get the most from your pharmacy benefit

Have a prescription to fill? Wondering if you should switch to a generic or use our home delivery service? Here are some quick tips and programs you need to know about.

How to fill your prescription

Whether you have a new prescription or need to refill an existing one, our network of more than 65,000 participating pharmacies has you covered—across the country and around your corner.

Show your member ID card to your pharmacist so they can file your claim with us online and tell you how much you owe.

Programs to stretch your pharmacy dollar

Our programs are designed to put valuable medication and health support into your hands, while also saving you money.

Covered-drug list

When it comes to choosing medications, it's important to know how the list of covered drugs—or formulary—works.

The covered-drug list divides medications into multiple tiers, each with its own cost share. Before we add a medication to the list, our team of doctors and pharmacists carefully evaluate how safe and effective it is while assessing whether it will improve health.

What does this mean for you? By knowing whether your benefit covers your medication as well as which tier it falls under, you'll know how much you owe.

Generics

Generic and brand-name medications have the same strength, quality and purity. But, generics can cost up to 80% less. So, ask your doctor if there is a generic drug that will work for you.

Home delivery

You can get some medications—like the ones you take for a chronic condition—mailed to you at the location of your choice. That means fewer trips to the pharmacy, and it can even save you a copay or lower your out-of-pocket costs if you have coinsurance.

Clinical programs

Our pharmacists work behind the scenes to help you get the medications you need when you need them. We also look out for safety concerns, such as potential drug interactions or duplicate prescriptions, that could affect you.

Specialty Pharmacy

We know that living with a complex health condition can be stressful and sometimes confusing. Our specialty pharmacy services are here to support you with the care and medications you need, every step of the way. In some cases, your plan may require that you use our Specialty Pharmacy.

To assist you with the complexities of your condition and its treatment, our Specialty Pharmacy services will help you coordinate refills, monitor side effects, and give you 24-hour access to clinical specialists. You'll even get injectable supplies for free—and everything can be delivered to your home or location of your choice.

Understanding pre-authorization

To ensure you're getting an effective drug at an affordable price, we review prescriptions for some medications before we cover them. Drugs on the pre-authorization list include many for which equal or more effective and lower-cost options exist.

If your drug needs pre-authorization, you'll want to do one of two things:

I. Talk with your doctor to see if there's an alternative treatment that does not require pre-authorization.

OR

2. Have your doctor or pharmacist request pre-authorization for your medication. You may need to get that authorization before you can get your prescription filled.

Questions? Call the Customer Service number on the back your member ID card.

PHARMACY SERVICES

Preventive Services: Covered Tobacco Cessation Products

Are you ready to kick the habit?

We recognize it is hard to quit, but studies from the United States Preventive Services Task Force (USPSTF) show that a combination of interventions, including brief behavioral counseling sessions (less than 10 minutes) along with medication or nicotine replacement treatment are effective in increasing the success rate of people trying to quit and remain tobacco-free for one year.

Treatment

Combination therapy with counseling and medications is more effective at increasing success rates than either component alone. There are many different forms of medication treatment approved by the US Food and Drug Administration (FDA) that are effective for treating tobacco dependence in non-pregnant adults. As part of the Preventive Care Prescription Benefit, several FDA-approved tobacco cessation medications are covered at no cost to you. Treatments that are not FDA-approved medications are not covered under the prescription benefit (such as "e-cigarettes"). For information on coverage of tobacco cessation services under the Medical Benefit, please visit your health plan's web page.

Covered Prescription Medications

Available at a Pharmacy at no cost to you with a valid prescription from your doctor:

- APO-varenicline, varenicline
- Bupropion (tobacco cessation formulation)
- Chantix[®]
- Nicotrol[®] nasal spray/oral inhaler+*

Using your OFCA physical examination benefit

As your health plan provider, SDIS is proud to administer cost-effective, work-related physical examinations. The OFCA physical exam benefit* is based on age as follows:

Physical Exam Benefit		
Age	Frequency	
Under 30	Every three years	
30-39	Every two years	
40 and over Once per year		

* The benefit reimburses 100 percent of worked-related physical examination costs up to \$300. Eligibility is determined by your district.

EASY STEP-BY-STEP REIMBURSEMENT GUIDE

1. Schedule the work-related physical examination with a provider of your choice. The provider will bill your district directly and your district will make payment to the provider.

2. Save a copy of the itemized invoice reflecting services rendered and amounts charged for each employee who obtains the work-related physical examination. This should include procedure and diagnosis codes along with dates of service.

3. Please submit a copy of the invoice to WHA Insurance Agency and a list of employees who received the work-related physical. You can send the information directly to Kim Nicholsen and Sam Bianco; they will review the documentation before forwarding the information to SDIS to process the reimbursement payment.

4. Please note, if an employee obtains their work-related physical during an individual appointment, please instruct the employee to have their physician fill out the attached form and return the form to the district for authorization before the district submits the completed form to WHA Insurance Agency.

Download the reimbursement form in the benefits section of the SDIS website or at: www.sdao.com/files/7cb402483/OFCA-reimbursement.pdf
